

List of URLs and directories used by ETKA/PET2

Dear Sir or Madam

This document describes which URLs and directories (local or over network) must be accessible for ETKA/PET2 to work properly.

1) URLs

In order to fully ensure that the customary quality of the internet-based functions of your ETKA/PET2 systems is maintained in the future, it is necessary to check if certain internet addresses can be reached by your system.

Your access to the internet might be specially secured, e.g. by the use of a firewall or access through your provider's proxy server.

The following URLs must be accessible from your system:

[https://fgst.lex-com.net/...](https://fgst.lex-com.net/)

[https://update1.lex-com.net/...](https://update1.lex-com.net/)

[https://update2.lex-com.net/...](https://update2.lex-com.net/)

[https://www.etkainfo.com/...](https://www.etkainfo.com/)

[https://www.partslink24.com/...](https://www.partslink24.com/)

[https://www.etka.com/...](https://www.etka.com/)

[https://combox-relay.lex-com.net/...](https://combox-relay.lex-com.net/)

[https://grp.global.volkswagenag.com/...](https://grp.global.volkswagenag.com/)

[https://licenseserver.lex-com.net/...](https://licenseserver.lex-com.net/)

Additionally, for ETKA/PET2 Servers:

*.eset.com

*.eset.systems

*.e5.sk

The ports **80 (http)** and **443 (https)** must also be open.

Please make a note of these address data and ports and share it with the person in charge of your system. This information is available at www.etkainfo.com where you can print it out.

Note: LexCom will not cover any costs arising from the installation of Internet access and the use of the Internet.

LexCom Support

2) Directories

ETKA/PET2 needs access to the following directories:

Note: For PET2, use the path C:\ProgramData\LexCom\PET2 instead of C:\ProgramData\LexCom\ETKA.

Content	Path ETKA/PET2 local
Local user data default path	C:\ProgramData\LexCom\ETKA\USERDATA
Order forms	C:\ProgramData\LexCom\ETKA\USERDATA\ETKAORDERS
Depot order forms	C:\ProgramData\LexCom\ETKA\USERDATA\IVZ
NORA order forms <i>Customizable path</i>	C:\ProgramData\LexCom\ETKA\USERDATA\NORAORDERS
Addresses	C:\ProgramData\LexCom\ETKA\USERDATA\ADRESSE
Notes <i>Customizable path</i>	C:\ProgramData\LexCom\ETKA\USERDATA\nOTES

Content	Path ETKA/PET2 Fatclient
Local user data default path	C:\ProgramData\LexCom\ETKA\USERDATA
Order forms	C:\ProgramData\LexCom\ETKA\USERDATA\ETKAORDERS or \\<SERVERNAME>\va_etord or \se_etord or \sk_etord
Depot order forms	C:\ProgramData\LexCom\ETKA\USERDATA\IVZ
NORA order forms <i>Customizable path</i>	Offline local: C:\ProgramData\LexCom\ETKA\USERDATA\NORAORDERS or online ETKA/PET2 Server: \\<SERVERNAME>\va_nora or \se_nora or \sk_nora
Addresses	C:\ProgramData\LexCom\ETKA\USERDATA\ADRESSE
Notes <i>Customizable path</i>	C:\ProgramData\LexCom\ETKA\USERDATA\nOTES
ETKA Server specific path	C:\ProgramData\LexCom\ETKA_Server

Content	Path ETKA/PET2 Thinclient
Local user data default path	C:\ProgramData\LexCom\ETKA\USERDATA
Order forms	C:\ProgramData\LexCom\ETKA\USERDATA\ETKAORDERS or \\<SERVERNAME>\va_etord or \se_etord or. \sk_etord
Depot order forms	\\<SERVERNAME>\va_vz or \se_vz or \sk_vz
NORA order forms <i>Customizable path</i>	\\<SERVERNAME>\va_nora or \se_nora or \sk_nora
Addresses	\\<SERVERNAME>\Adresse
Notes <i>Customizable path</i>	C:\ProgramData\LexCom\ETKA\USERDATA\nOTES
ETKA Server specific path	C:\ProgramData\LexCom\ETKA_Server
